Rabbit Holes Sizes
 on: 31 August 2012, 16:14 »

As any object in game, rabbit holes take up a special amount of tiles on a lot. As a world builder, it's good to know how much space they need to make it easier to put out lots for them. So I have measured and measured and made a complete list of **ALL** rabbit holes.

The list is sorted in different ways, to make it easier for you to find what you are looking for. Click a link below for the sorting you prefer to view the list in that particular way!

- by EP/SP/Store set
- by Rabbit Hole type

If you have a suggestion for an additional way to sort the list or anything else to say about the list, please PM me.

*Rabbit holes from newer EPs/SPs/Store sets, or EPs/SPs/Store sets I myself don't own may or may not be in the list, but I am to eventually have their sizes added.

List Updates
 2013-09-28 *Dragon Valley, Island Paradise and Midnight Hollow rabbitholes added*
 2013-09-28 *Aurora Skies and University Life rabbitholes added; new rabbithole type: University Building*
 2012-12-27 *Showtime rabbitholes updated*
 2012-12-09 *Monte Vista rabbitholes added*
 2012-09-12 *Supernatural rabbitholes added; new rabbithole types: Antiquity Vault, Arboretum, Gypsy Caravan*
